

Guilin University of Electronic Technology (GUET) is cataloged a key public university of Guangxi which is jointly sponsored by the Ministry of Industry and Information Technology and Guangxi Zhuang Autonomous Region. It is one of the four universities focusing on electronic technology in China. Founded in 1960, with sustainable development, GUET has shaped a multidisciplinary university focusing in engineering-based teaching and featuring electronic information and technology.

Located in the world-famous city of Guilin and city of Beihai, GUET owns three campuses: Huajiang Campus, Jinjiling Campus and Beihai Campus, covering an area of 1,000 acres. The university now has 22 colleges, covering 7 disciplines in engineering, science, management, economics, liberal arts, law and art. It offers 70 undergraduate programs, 30 postgraduate programs including 139 research directions, and 4 doctorate programs.

GUET possesses over 2,900 faculties and staff. Students from different campuses amount to 29,000, maintaining an annual employment rate of 93%. Additionally, GUET has built one of the largest libraries in china with 42,000 square meters, 2 million books, 19,000 kinds of Chinese and foreign journals and 90 databases. It designs advanced internet information platforms and excellent environment for learning.

Recently GUET has established good cooperative relationships with more than 160 universities and academic institutions in Asia, Europe, the Americas, Oceania and Africa, building strategic partnerships with 80 universities. In the past 10 years, more than 1,200 GUET students have been studying abroad and around 3,000 international students had pursued their studies in GUET. Presently the university has 700 international students from over 34 countries and regions. Apart from cooperation with universities from France, Ireland, England and what have you, GUET and UCC (University College Cork) have joined hands to cultivate undergraduates based on Internet Engineering Program.

PROGRAMS

Options to study in GUET

- Degree education: bachelor, master, doctorate programs
- Attestation: Chinese learning
- Short-time training

Bachelor: 4 years, obtain compulsory credits, graduation certificate and bachelor degree.

Master: 2 to 3 years, obtain compulsory credits, finish thesis and defense, obtain graduation certificate and master degree.

Doctor: 3 to 5 years, obtain compulsory credits and research achievement, finish dissertation and defense, obtain graduation certificate and doctorate degree.

Chinese learning: obtain compulsory credits, learning certificate.

Training: obtain learning certificate.

Terms: There are 2 terms: one spring term, another autumn term. Generally, the spring term starts from September to January, and the autumn term begins from February to June. Every year has 2 vacations. Summer vacation lasts for 2 months but winter vacation lasts for 4 weeks, along with Chinese New Year.

EXPENSES

Tuition

Chinese learning program: ¥ 11,000 CNY/year
Bachelor program: 13,000 CNY/year (disciplines: liberal arts, economics, management, law), 14,000 CNY/year (engineering, science), 16,000 CNY/year (art)
Bachelor program in English: 17,000 CNY/year
Master program: 18,000 CNY/year
Doctorate program: 25,000 CNY/year

Accommodation: Dormitory

1-bed room: 8,000 CNY/year/person
2-bed room: 4,000 CNY/year/person
4-bed room: 2,000 CNY/year/person

Living expenses

Average cost of ¥ 800 CNY/month/person

APPLICATION PROCEDURES

Fill in the Application Form for International Students in Guilin University of Electronic Technology. The form can be available on <http://isms.guet.edu.cn/Account/Login?ReturnUrl=%2F>.

For bachelor, master, doctorate program, notarized highest degree (certificate), transcript, graduation certificate in English or Chinese version are necessary. Attach the above-mentioned scanned copies and send them to office emails.

The office will send the admission letter when documents are satisfactory. Then students prepare for visa. Students are required to confirm the day of arrival so that the college makes arrangement to pick them up.

Students need to bring all the required authentic documents.

Students can do the medical checkup in Guilin.

WELCOME TO GUILIN UNIVERSITY OF ELECTRONIC TECHNOLOGY

PRESIDENT'S MESSAGE

President of GUET
Prof. Dr. Xu Huarui

Since its founding in 1960, Guilin University of Electronic Technology (GUET) has been one of only four universities in China, focused on Electronic Technology. We have always adhered to GUET's motto of "High Virtue and Good Learning and Commitment to Innovation", and to GUET's spirit of "Individual Hard Work and Self-reliance". Over the past years, thousands of talented women and men have graduated from Guilin University of Electronic Technology, and gone on to make significant contributions to the development of a harmonious world.

GUET continues to hire quality faculty who inspire excellence in the students through their own pursuit of continuing improvement in their knowledge and skills. An inspired faculty along with ongoing upgrades to facilities has created a comfortable and high quality learning environment for our students. Today, Guilin University of Electronic Technology has 22 Colleges, offering more than 70 undergraduate majors, 30 postgraduate majors and 4 PHD majors. Our desire to provide an exceptional education has a global vision. GUET has established cooperative relations with more than 160 universities and academic institutions in Asia, Europe, the United States, Oceania and Africa. Eighty universities have agreed to be GUET strategic partners. Our facilities include a Provincial Key Laboratory jointly built with the Ministry of Education, six Key Laboratories in Guangxi, and 15 provincial key disciplines. GUET also has the largest library in Southern China. With the Chinese Government Scholarship and Guangxi ASEAN Scholarship award units available, GUET attracts outstanding foreign students every year.

We respect knowledge and talent, and encourage students to innovate by advocating academic freedom. Guilin University of Electronic Technology warmly welcomes aspiring young people of the world to study in our university. Your decision to study at Guilin University of Electronic Technology will put you on a path to create and share glory, and you will cherish every moment of youth in this beautiful campus of GUET.

English, Japanese,
Teaching Chinese to Speakers of Other Language

Law

Law,
Intellectual Property

Art

Product Design, Visual Communication Design
Environment Design, Fashion Design, Animation,
Calligraphy, Digital Media Art, Art and
Craft, Public Art

Bachelor Program Taught in English

Electrical Engineering and Automation
Mechatronic Engineering
Telecommunications Engineering
Computer Science and Technology
Business Administration

MASTER PROGRAM

Engineering: Mechanical Engineering, Optical Engineering, Instrument Science and Technology, Materials Science and Engineering, Electronic Science and Technology, Information and Communication Engineering, Control Science and Engineering, Computer Science and Technology, Transport Engineering, Environmental Science and Engineering, Biomedical Engineering, Software Engineering, Cyberspace Security, Instrumentation Engineering, Material Engineering, Electronics and Communication Engineering, Integrated Circuit Engineering, Control Engineering, Computer Technology, Software Engineering, Transport Engineering

Science: Mathematics

Management: Management Science and Engineering (Legal Science and Management, Cross-cultural Communication Management), Master of Business Administration, Master of Accounting

Economics: Theoretical Economics

Law: Law

Liberal Arts: Master of Translation

Arts: Art Design

DOCTORATE PROGRAM

Information and Communication Engineering, Mechanical Engineering
Machinery Science and Technology, Cyberspace Security

CHINESE LEARNING PROGRAM

Major courses:

Beginner level: Chinese pinyin, introduction to Chinese, elementary listening, elementary speaking, Chinese reading, Chinese character reading and writing.

Medium level: Chinese, listening, speaking, reading, Chinese writing.

Advanced level: Chinese, advanced Chinese speaking, social culture, newspaper reading, Chinese writing.

Selective courses: Chinese cultures, Chinese calligraphy, elementary ancient prose, business Chinese, literature reading, Chinese history, Chinese customs, Chinese teaism, Tai ji etc.

SCHOLARSHIP

CHINA'S GOVERNMENT SCHOLARSHIP (for master program, doctorate program)

Requirements

- Respect of the customs, laws, and regulation in China
- Not more than 35 years old for master program; 40 for doctorate program
- Medical report
- Notarized highest degree (certificate), transcript, graduation certificate in English or Chinese version
- Recommendation letter of 2 professors
- 800 words study plan in English or Chinese
- Copy of passport ID page
- Register on www.laihua.csc.edu.cn. The registration code of GUET is 10595.

Allowance

- Waiver of tuition, accommodation, insurance
- Living allowance:** provision of ¥ 3,500 CNY/ monthly for the doctorate program, ¥ 3,000 CNY/ monthly for the master program

GUANGXI GOVERNMENT FULL SCHOLARSHIP FOR ASEAN STUDENTS (for doctorate program, master program, and bachelor program)

Requirements

- Respect of the customs, laws, and regulation in China
- Medical report
- Notarized highest degree (certificate), transcript, graduation certificate in English or Chinese version
- Recommendation letter of 2 professors or associate professors
- 300 words study plan in English or Chinese
- Copy of passport ID page
- Reference:** <http://www.csc.edu.cn/Laihua/universitydetailen.aspx?collegeld=158>

Allowance

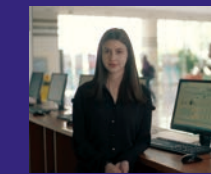

- Waiver of tuition, accommodation, insurance
- Living allowance:** provision of ¥2,000 CNY/ monthly for the doctorate program, ¥1,500 CNY/ monthly for the master program, ¥1,000 CNY/ monthly for the bachelor program

Deadline for application

China's government scholarship: **May 10th**.
Guangxi Government Full Scholarship for ASEAN Students: **June 20th**.

STUDENT LIFE

HOPOBA NOROVA MARGARITA

Studying Chinese

What a wonderful university GUET is! The teachers here are very friendly. No matter what problems we meet, our teachers will try to help us to solve them. And the teacher assistants like our friends. They play with us and guide us to live a wonderful school life. Life in the university is so warm, I like my life here.

LEEVONGSEANG ANOULUCK

majoring in Financial Management

GUET is quite an attractive university. Our international students live in a big campus which is filled with extraordinary scenery. Our campus is bursting with life and energy. With smaller class sizes, better access to lecturers, affordable living, a wide range of support services, excellent sports facilities and many student clubs, it's not surprising that we are the happiest in China.

ELHAM SEMAW TEKELE

majoring in Mechanical Engineering

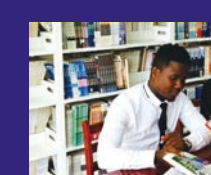

Life in GUET is brilliant. The school has all kinds of facilities. We have own study bedroom with bed, desk and chair. We are provided with three healthy meals a day in the canteen. Packed lunches are available on request. The food is very delicious. I love everything here.

DELGERMUNKH DASHDAVA

majoring in Enterprise Management

GUET is a university that all students like. The teacher and the students here are very enthusiastic. We have a diverse group of people with different cultures and ideas, which creates a vibrant student atmosphere.

MUUSHA LONELY

majoring in Civil Engineering

Life in the university is colorful. There are a variety of clubs for us to join, ranging from academic and cultural clubs to sports. GUET often holds a variety of activities. And with a vast range of sports clubs, sporting facilities and an on-campus gym, it's easy to get involved in sport and fitness at GUET.

NOU SOPHEAKTRA

majoring in Enterprise Management

The atmosphere at GUET is very good. The comfortable and nice views are so interesting. Studying here is a new experience. We have many lessons to choose. I like studying here. I enjoy the atmosphere at GUET.

NGUYEN THI THU HANG

majoring in Financial Management

At GUET, with the help of teachers and friends, We can acquire all kinds of knowledge. We can learn many theories in the books and varies of skills to communicate better with others. GUET is a bridge between the world and us. We love our big family together.
